

Half Windsor Knot

1. With the tip of the blade – the wide end - at your belt, pinch the blade next to the neck button and pull it down 15ins (38cm).
2. Cross the blade over the tail.
3. Pass the blade under the tail.
4. Bring the blade (a) up over (b) and then down through the neck loop to the opposite side you started from.
5. Cross the blade (a) over the half knot (b) and pull it up through the neck loop.
6. Feed the blade down through the front of the knot.
7. Adjust and then tighten and pinch to shape.
