

# Windsor Knot

1. With the tip of the blade – the wide end - at your belt, pinch the blade next to the neck button and pull it down 17ins (43cm).
2. Cross the blade over the tail.
3. Push the blade (a) up under the tail and pull it through the neck loop (b) then bring it down to the same side you started from.
4. Pass the blade (a) under the tail (b) and bring it up over (c) and then down through the neck loop to the same side you started from.
5. Cross the blade (a) over the half knot (b) and pull it up through the neck loop.
6. Feed the blade down through the front of the knot.
7. Adjust and then tighten and pinch to shape.
